Summary:

A seasoned software engineer with 13 years of industry experience, primarily focusing on JavaScript for the last 9 years. Throughout my career, I have taken on roles as a Full-stack, Frontend, and Backend Developer. I have a comprehensive understanding of modern frontend technologies, web design principles, usability, and accessibility standards. My expertise spans from writing clean, reusable, and testable modules to debugging and optimizing performance. I'm adept in Agile processes, thrive in high-pressure environments, and am always on the lookout for the best solutions. A strong communicator and team player, I'm seeking a challenging full-time remote role where I can contribute to the development of innovative products.
